Power (kW)	3,4

Multi-purpose compact dishwashers with 40x40 cm racks. The wide 32 cm opening allows washing even the tallest glasses (max. 27 cm high). Its versatility is enhanced by the rotating upper and lower spray arms, patented, making it perfect for the washing of dishes up to 28 cm in diameter. Thanks to the new rinsing system, water consumption per rack is only 1.6 lt against the 2.4 lt of an equivalent traditional machine; while the patented drain system , with double filters, allows combining the performance of a machine running on clean water with the cost effectiveness of one running with recycling water.
