Volume (m3)	0.28
Power (kW)	5,4

The D506LS model is a remarkably versatile under-counter dishwasher, perfect for all those places where the needs are challenging but the space available is limited. Thanks to the wide 36.5 cm door opening, even pizza dishes and the largest underplates can be washed effectively. The powerful jets of the (rotating) upper and lower spray arms guarantee maximum hygiene. The double wall door reduces heat loss and noise and equipped with a very Ergonomic handle; possibility to install integral tank filters (optional). The D506LS model provides specific versions for single-phase (hot water supply) or 3-phase (hot or cold water supply) power supply connections.
